Practice Management Insight

ThinkHealth Update v. 3.97

OrionNet Systems will be doing a deployment of ThinkHealth v 3.97 the updated changes will be made to the following areas are Main Desktop, Staff Module, Assessment, CDC, Patient Module and. much more.

Our support and development team have worked diligently, without complaint, to insure the next deployment goes as smooth as possible. The team here at OrionNet Systems is taking the necessary steps to make sure our clients are not affected by the upcoming updates.

We will be doing a deployment on **Thursday, April 20th 2017**, starting at 5:00 pm. As always, please make sure your team is not logged onto the server during this time.

As always, if you have comment or questions please let me know.

OrionNet Systems -ThinkHealth EHR meets Grant Requirement
&
Encourages Grant Opportunities

Oklahoma's Behavioral Health Industry has been devastated by the massive budget cuts over the last few years. With the next fiscal year quickly approaching, another budget shortfall is inevitable. Agencies are searching for other funding opportunities to help sustain there business so they can continue to render services to our Oklahoma Citizens.

SAMHSA provides a list of Federal Funding Opportunity Announcements on there website. https://www.samhsa.gov/grants/grant-announcements-2017
Applying for Federal Funding Grants is not a simple endeavor. It takes time to find and research them, understanding the purpose and expectations for funding, meeting the eligibility criteria, completing the application process, and finally the submission, evaluation, and selection process. Applying for an FOA, although time consuming would be an enormous benefit to agencies and the clients they provide services for. Having extra funding during Oklahoma's budget crisis would assist agencies in keeping the doors open and the ability to provide appropriate services and care to the community.

OrionNet Systems wants to reassure customers that ThinkHealth EHR has been tested and certified by ICSA Labs, our EHR version of ThinkHealth will help you to meet the requirements set in the SAMHSA Funding Opportunity Announcement. If you are interested in applying for funding or are looking into grant opportunities, now is the time to upgrade to ThinkHealth EHR. To view our EHR Certification click the link for ICSA Labs https://icsalabs.s3.amazonaws.com/cert_directory.html

More Information

Clinician Activity Training—CDC Module

Join us for a webinar on May 04, 2017 at 10:00 AM CDT.

Register now!

https://attendee.gotowebinar.com/register/2572960942702873091?source=April+Newsletter

LPC/LMFT, LADC/CADC, and Case Managers
Cost is $25

Join us for the "Clinician Activity Training - CDC's" Training will consist of learning the necessary information required to create a CDC within ThinkHealth. We will concentrate on the CDC 21(pre admission), 23 (admission), and 42 (update). We will review the benefits of validating your CDC, linking your CDC to your Treatment Plan, and the steps for transmitting for approval. We will briefly review what data flows from the Assessment module to the CDC and then to the Prior Authorization.

This Training has been approved for Continued Education Credits. LPC/LMFT, CADC/LADC, and Case Managers. Cost for the certificate is $25. The cost may be added to your agencies monthly invoice or paid on an individual basis after the training is completed. For more information contact marketing at 405-286-1674

After registering, you will receive a confirmation email containing information about joining the webinar.
